Bonus Round

Successfully match the symbol pair shown on the bonus panel, and you will enter the Bonus Round.

One by one here, you select coins. With any luck you might score yourself another token or life.

Super Bonus Round

If you can finish the stage before the super bonus counter reaches zero, then you have an opportunity to enter the SUPER Bonus Round.

Here you select coins to turn over, but with a much higher chance to gain rewards than the Bonus Round.

Game Tips

- Focus on upgrading particular power-ups instead of spreading points around.
- Always get double bonus as soon as possible to maximise your chance of bonus rounds.
- Some later grids are not possible without using some form of time adjustment power up. Keep this in mind when purchasing upgrades.
- Buy Freeze Time if you're only a few seconds away from completing a level, because you will lose all of your score if you cannot complete a level in time.
- Don't do smack.
